

Continuing Student Learning (CSL) Parent Week 2 Survey Summary Results by Helen Thew Cross Campus Principal

Thank you for taking the time to complete the second CSL survey. We received 704 responses. Below are the 'headline' results from the survey.

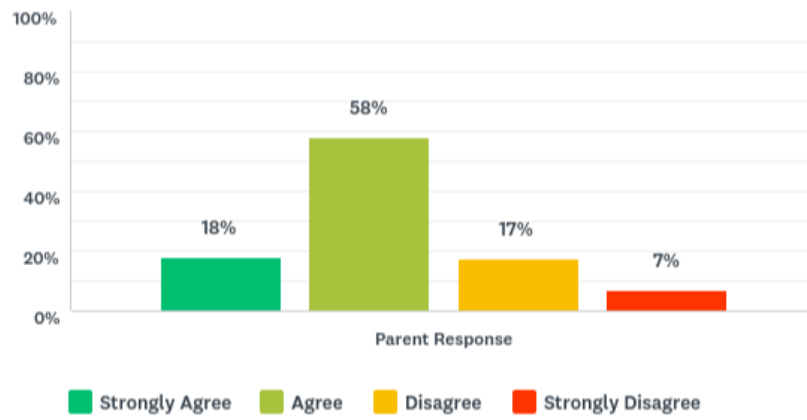

Q1 Which Year group is your child in?

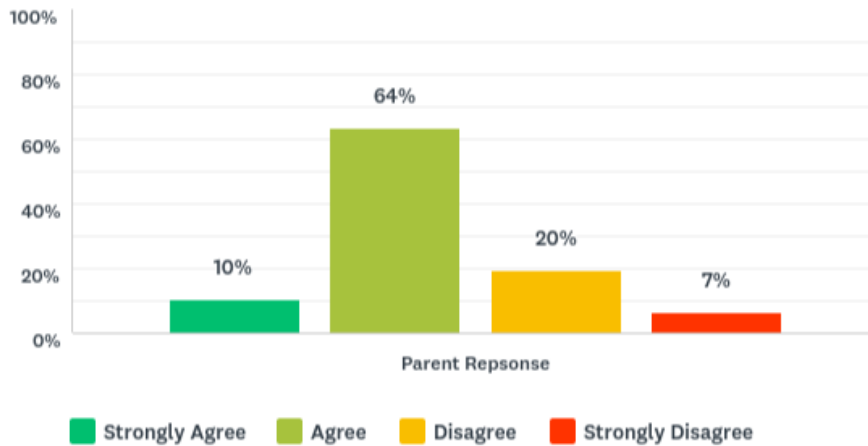

Q2 The amount of learning being set for my child is appropriate (the task can be completed in the time given).

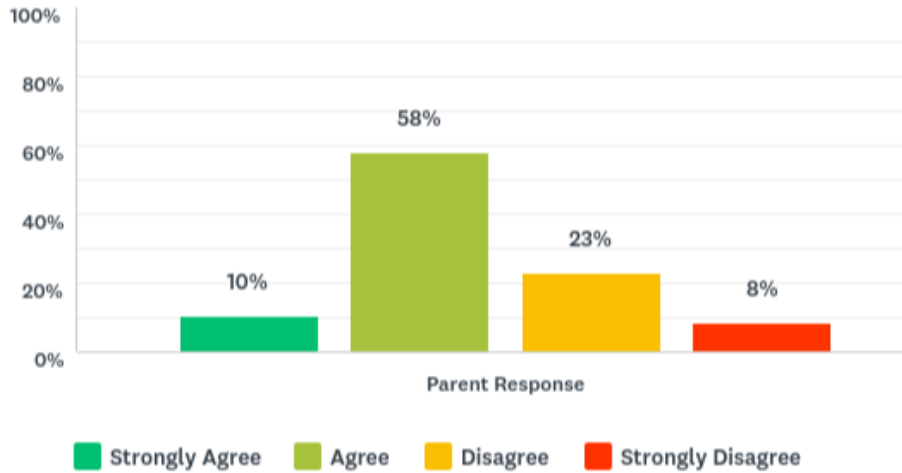

Q3 The teacher is communicating and feeding back with my child in a variety of ways including some face to face interactions.

Q4 The learning is engaging (fun/interesting).

Q5 The learning is appropriately challenging.

We have read through all the comments you provided and are passing on your helpful suggestions to the relevant staff. It is good to hear that your child(ren) enjoyed the face-to-face interactions they have had this week with their teacher(s) and friends. We are working to ensure that more of these teacher-student interactions will be happening when we resume CSL on Monday 20th April.

Thank you for your time in completing this survey, it has certainly given us lots to think about for future CSL planning.
